

4 Tools to Keep Remote Workers Engaged

In changing times, businesses need to adapt sustainable performance evaluation methods in order to perfectly align employee goals to business objectives. Ensuring employees are constantly developing themselves and being engaged is one of the ways to achieve this.

SAP SuccessFactors Employee Central

The current 'Work From Home' (WFH) realities imposed by the COVID-19 pandemic have made it evident that there is no better time to engage your workforce using cloud technology than today.

One core hub to manage your entire workforce data and improve visibility for better decision-making, HR alignment and business strategy is the SuccessFactor's Employee Central platform.

SAP SuccessFactors Performance & Goals

Accurately measure the value and impact of your employees' efforts; objectively assess performance and identify and reward high performers.

Proper performance and goals management improves overall employee productivity, workforce engagement, lowers employee turnover and will help most organisations earn higher revenue per employee due to improved productivity.

SAP SuccessFactors Learning

Organizational learning can sometimes be disrupted by lack of physical activity however by investing in an online learning platform, learning and development can continue on the go!

- Reduce content costs by up to 85% by utilizing partners from the Open Content Network
- Increase course completion rates.
- Integrate your learning platform with key talent management solutions

SuccessFactors Learning is a modern, personal, and measurable solution supporting talent development, compliance training, and Extended Enterprise training.

Qualtrics

Gaps in understanding employee experience can lead to serious implications for employee well-being, productivity and impact businesses in the long run if not addressed quickly.

Quickly assess workforce morale and well-being, understand employee needs, whether remote or on-site, with automated yet configurable surveys. Use pre-built reports to understand experiences by team and location and act on what matters most.
