PUBLIC NOTICE

RECENT BUSINESS DISRUPTIONS – FURTHER TAX PALLIATIVES

The Federal Inland Revenue Service (FIRS) hereby identifies with businesses that suffered one form of loss or the other occasioned by the recent EndSARS PROTESTS that erupted in certain parts of the nation.

The attendant disruption to businesses and indeed destruction of property is coming when the economy is just struggling to recover from the harmful effects of COVID-19.

In view of the above, and as part of its on-going initiatives of assistance to businesses at this difficult time, FIRS hereby provides additional window of penalty and interest waiver for businesses that pay up in full, the principal portion of their outstanding liabilities between now and 31st December, 2020.

Such outstanding arrears could have resulted from:

- a) Self- Assessments and;
- b) Government Assessments arising from desk audit, field audit or investigation.

This is in addition to the following palliative measures earlier introduced which are still in place:

- a) Extension of monthly WHT and VAT Returns filing to end of month.
- b) For taxpayers who earn their revenue in Naira and are facing challenges in sourcing for FOREX to offset their tax liabilities, the option of paying in Naira at the prevailing Investors & Exporters (I & E) FOREX window rate on the day of payment.

We are hopeful of speedy recovery for businesses affected and indeed our economy in general.

All enquires on the above subject can be directed to the office of the Special Assistant to the Executive Chairman on Technical Matters, Room 423, Revenue House, 15 Sokode Crescent, Wuse Zone 5, Abuja.

STAY SAFE ALWAYS!

Muhammad Nami
Executive Chairman
Federal Inland Revenue Service
